FAQs

What are Organic foods?

Organic foods are produced without the use of herbicides, pesticides or artificial fertilisers, are not irradiated and do not contain chemical additives or preservatives.

What type of wholegrain's are used?

The wholegrains used in BiOpet Organic and BiOpet Vegan are wheat, sorghum, barley, oats, millet, rice.

What vegetable oils are used in BiOpet Vegan?

BiOpet Vegan uses a blend of sunflower, canola and flaxseed oils.

Can a dog maintain a healthy lifestyle on a Vegan diet?

Most definitely, dogs are omnivores not carnivores as a lot of people think. Omnivore, meaning that they can sustain a balanced and healthy lifestyle by eating both plant and meat.

Where are your raw materials sourced from?

All of the materials are sourced solely from Australia.

Are you Australian owned and made?

Yes, 100% Australian owned and 100% Australian made.

Dogs are omnivores and as such can happily thrive eating an all vegetable diet. If you want to avoid feeding your dog meat or animal products, then BiOpet Vegan dog food will satisfy your dogs needs.

Protein is supplied from field peas, green beans, soya beans, sunflower seed meal and maize gluten.

Energy is supplied from nutritious wholesome malt and whole grains. Vegetable oil is a source of Omega 3 and Omega 6 essential fatty acids as well as energy. Omega 3 and Omega 6 help the immune system and give the pet a glossy coat.

BiOpet Vegan Adult dog food is a complete food which meets the nutritional requirements for adult dog maintenance as listed by the AAFCO, a worldwide recognised body for pet food nutritional standards.

Vitamins A, D3,E,K,B1, B2, B6, B12, biotin, folic acid, niacin, pantothenic acid and trace minerals – iron, copper, zinc, manganese, iodine, cobalt, selenium are added to ensure a healthy dog.

BiOpet Organic Puppy

Product Analysis
